NOTES					
<p>Since variations are common in artistic ceramic tile, we recommend final selection be made from an actual tile mock-up. To achieve optimal results in shading, layout and design, tile should be randomly selected from multiple boxes during installation. We recommend a minimum of 10% overage on all orders. Installation constitutes acceptance. We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed). Please be advised that the color MOONSTONE can vary in tonality (lighter-to-darker gray) between sizes and lots. We strongly recommend obtaining size/lot specific samples prior to ordering.</p>					
MAINTENANCE					
<p>A routine cleaning of Shinju Mirai tile can be done with light duty, diluted close to neutral pH detergent cleaner.</p>					

* Acceptable for limited and sporadic exposure near open flame or heat source, including fireplace wall/cooktop surround. Not recommended for placement inside a firebox.

** Metallic Glazes Pacific and Olympia are not recommended for installation in pools, spas, water features or steam showers. All other colors are acceptable.

▲ Paper and Tent are dimensional tiles and thus NOT recommended for use on floors. All other sizes are acceptable.
